Shell Eco-marathon Team

Shell Eco-marathon is an international competition program addressed to teams of students coming from high school and university institutions of all the World providing a collaborative platform to get hands-on experience in achieving ultra-energy-efficiency.

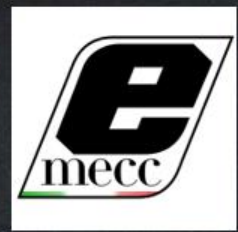

“We are a motorsport team of about 20 students of Politecnico di Milano. All the team members come from Bachelor and Master’s Degree courses and from different academic programs. We design, built and bring on track ultra-efficient vehicles.”
